FOOD ORDERING SYSTEM		

Introduction

The Objective of the Food Ordering System is to allow the users to explore through multiple restaurants and their menus and order the Food. The module also contains the functionality of the **Payment** and **Tracking** Order.

About the Authors :

The Following group members are behind the design and code of the System -

1. Niharika Poddar MT21057
2. Parul Jain MT21064
3. Sristi Sharma MT21098
4. Shubham Jain MT21091

Learnings

While development of the Project following aspects were covered and learnt -

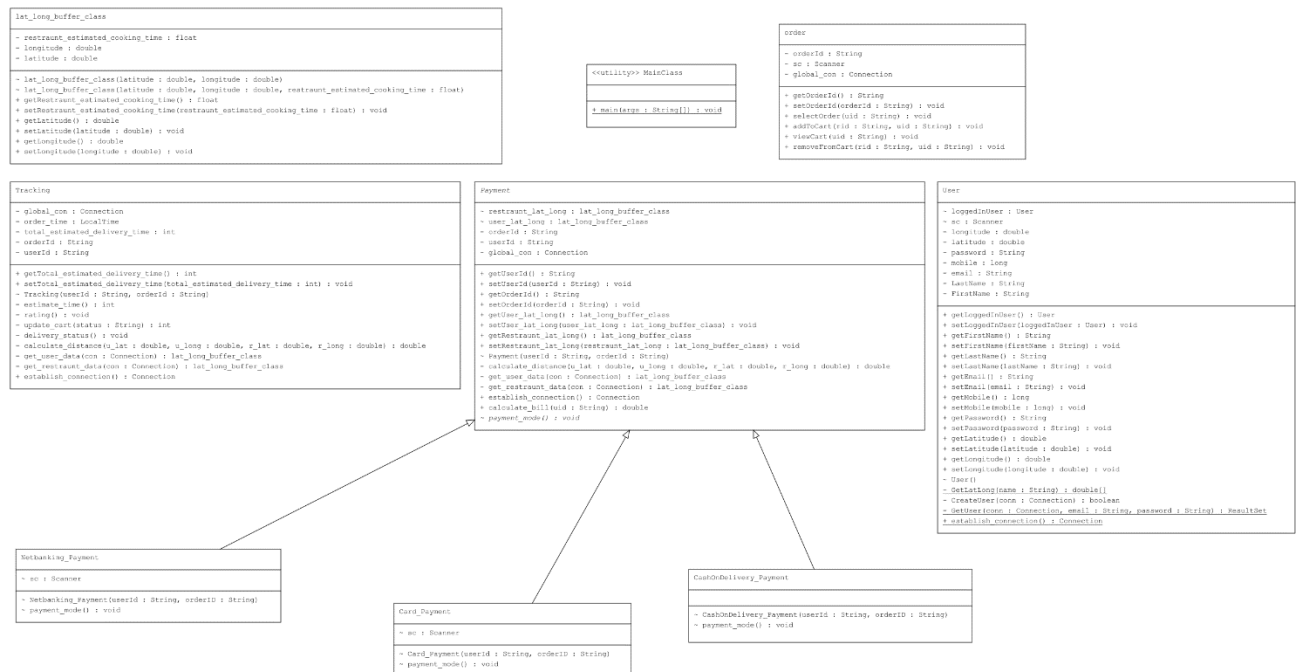

1. Object Oriented Programming
 2. Object Oriented Design (classes and objects)
 3. Encapsulation
 4. Abstract Class
 5. Buffer Class
 6. Database Connectivity (JDBC)
 7. UML Diagram
 8. Documentation using Doxygen
 9. Profiling
 10. Packaging
 11. Polymorphism
 12. Method Overriding
-

Classes-

My Project

Main Page	Classes ▾	Files ▾
Class List		
Here are the classes, structs, unions and interfaces with brief descriptions:		
Card_Payment	Inherited Class from the Abstract Class Payment Card_Payment : To do Payment through Card	
CashOnDelivery_Payment		
lat_long_buffer_class	A Buffer Class This buffer class holds the latitude , longitude and restaunt_estimated_cooking_time	
MainClass	Main Class	
Netbanking_Payment	Inherited Class from the Abstract Class Payment Netbanking_Payment : To do Payment through Netbanking	
order	Class Order This class manages the order, the restaurants / food items user wants, According to the input by user	
Payment	Abstract Payment Class	
Tracking	Tracking Class	
User	User Class	

Class diagram-

Running the code-

USER MODULE

First if we enter wrong credentials (according to the ones stored in database) then it shows – Incorrect credentials, then entering correct details, user is successfully logged in.

```
MainClass X
"C:\Program Files\Java\jdk-17.0.1\bin\java.exe" "-javaagent:C:\Program Files\JetBrain
Welcome to the Food Ordering App
Are you an existing user? If yes then enter 'yes', if No then enter 'no'
yes
Enter user name :
jain@test.comm
Enter password :
jain
Incorrect credentials. Try again..
Are you an existing user? If yes then enter 'yes', if No then enter 'no'
yes
Enter user name :
jain@test.com
Enter password :
jain
shubham
shubham has successfully logged-in
```

ORDER MODULE

User can add items now.

shubham has successfully logged-in

Restaurant list:|

1 Sagar Gaire

2 Vishnu's

3 Barista

4 Sam's Cafe

Enter the Restaurant you want:

1

Menu of the selected restaurant:

1 Burger 50

2 Sandwich 40

3 Coffee 20

4 Pasta 300

5 Shake 220

Option:

1. Add item

2. View cart

3. Remove items

4. Go to payment

5. Discard

1

Add to cart option enabled...

Enter item number from menu-

1

Enter the quantity

1

ORDER ID : jain@test.com_2021-12-10T16:20:43.102914900

ITEM ADDED SUCCESSFULLY.

1.Do you want to keep adding items?

2.Finish adding and go back to Menu.

1

PAYMENT MODULE

If bill is less than minimum value(100) then user has to add more items to card to move to payment.

PAYMENT:

Select the payment mode:

1. Debit/credit card
2. Cash on delivery
3. Net banking

3

Your base bill is less than the minimum value

Add more Items and make sure Base Bill is above 100

Option:

1. Add item
2. View cart
3. Remove items
4. Go to payment
5. Discard

1

Add to cart option enabled...

Enter item number from menu-

4

Enter the quantity

3

ORDER ID : jain@test.com_2021-12-10T16:20:43.102914900

ITEM ADDED SUCCESSFULLY.

1. Do you want to keep adding items?
2. Finish adding and go back to Menu.

2

Now since total bill exceeds 100, then user can move to payment module according to the payment mode he wants.

PAYMENT:

Select the payment mode:

- 1. Debit/credit card
- 2. Cash on delivery
- 3. Net banking

3

Your total bill is 969.56

Do you have a Promo Code?

yes

Enter the Promo Code

save20

Your Final Cost is 775.6479999999999

Enter ID

9874

Incorrect ID

Enter Again

987456

Enter Password

741

Your Payment is Successful, Thankyou for Ordering

TRACKING MODULE

This module tracks the order according to the time of arrival, then when the order is received user can give ratings.

Your Payment is Successful, Thankyou for Ordering

Your Order will be delivered in 49 mins

Expected Time of arrival : 17:15:22.237682700

Order Recieved ? Yes / No :

no

Your Order will be delivered in 44 mins

Expected Time of arrival : 17:15:27.675624200

Order Recieved ? Yes / No :

no

Your Order will be delivered in 44 mins

Expected Time of arrival : 17:15:39.307407900

Order Recieved ? Yes / No :

no

Your Order will be delivered in 44 mins

Expected Time of arrival : 17:15:41.378917

Order Recieved ? Yes / No :

yes

Thank You for ordering !!

Please provide the rating to our service 1 to 5 :

5

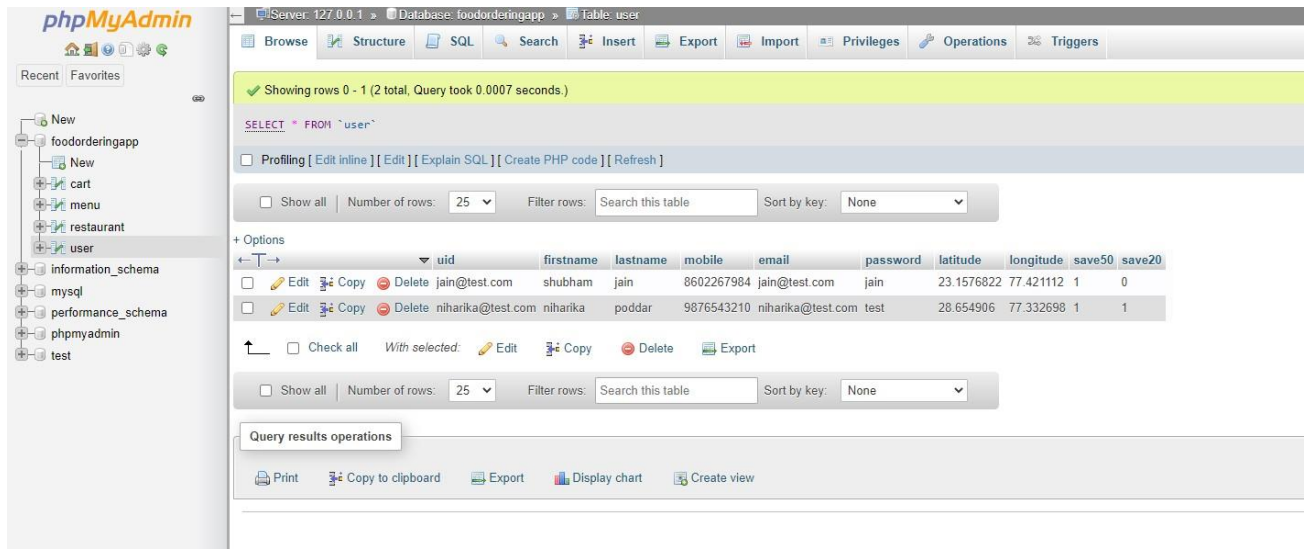

If the delivery time exceeds 10% of delivery time and order has still not received then – cancel order option is enabled for the user.

```
Your Payment is Successful, Thankyou for Ordering
Your Order will be delivered in 7 mins
Expected Time of arrival : 17:02:48.389410300
Order Recieved ? Yes / No :
no
Your Order will be delivered in 7 mins
Expected Time of arrival : 17:02:51.814768100
Order Recieved ? Yes / No :
mp
Your Order will be delivered in 7 mins
Expected Time of arrival : 17:02:53.924031700
Order Recieved ? Yes / No :
no
Your Order will be delivered in 7 mins
Expected Time of arrival : 17:02:56.665599500
Order Recieved ? Yes / No :
no
Your Order will be delivered in 5 mins
Expected Time of arrival : 17:02:57.261152300
Order Recieved ? Yes / No :
no
Your order will be delivered anytime now !
Order Recieved ? Yes / No :
no
Do you wish to cancel order ? Yes/No :
no
Your order will be delivered anytime now !
Order Recieved ? Yes / No :
no
Do you wish to cancel order ? Yes/No :
yes
Your Order has been cancelled and money will be refunded to your account(COD not eligible for refund)!!

Process finished with exit code 0
```
